## PROFILE

Information Systems undergraduate who turns raw data into decisions using SQL, Python, Power BI and Tableau, backed by IBM and Google Data Analytics certifications. Seeking a Data Analyst Internship to deliver clear, evidence-based recommendations on real business data.

## TECHNICAL SKILLS

- **Data & Analytics:** SQL (joins, aggregation, sub-queries), Excel (Pivot Tables, VLOOKUP), data cleaning, exploratory data analysis
- **Statistical Methods:** descriptive statistics, correlation analysis, customer segmentation, trend and time-series analysis
- **Programming:** Python (pandas, Matplotlib)
- **BI & Visualization:** Power BI, Tableau, IBM Cognos Analytics
- **Tooling:** Git, GitHub, VS Code, Jupyter Notebook
- **Languages:** Tamil ([native]) · English ([professional working proficiency]) ·

## PROJECTS

**Smart UniMate – University Chatbot & Student Engagement Platform -** *Link*
*Capstone Project | Sabaragamuwa University of Sri Lanka | 2025–2026*

- Developed a **web and mobile platform** to help new university students access academic, administrative, and campus information.
- Worked with technologies including **Next.js, Laravel, Python/Flask, PostgreSQL, Azure Active Directory, Git/GitHub, Figma, and Postman**.

**Customer Churn Analysis** | *Python (pandas, Matplotlib), SQL - Link*

- Identified the 3 strongest drivers of churn in a 7,043customer telecom dataset, together accounting for 83% of cancellations.
- Cleaned data with pandas, segmented customers by tenure, plan and usage in SQL, and visualised churn patterns with Matplotlib.
- Recommended a retention strategy for the highest-risk segment, which churned at 70.2% against a 26.5% baseline.

**Student Exam Performance Analysis** | *Excel, SQL - Link*

- Quantified performance gaps across 1,000 student records, showing that test preparation changed average scores by 7.6 points (11.7%) points and that [factor] explained the widest gap between groups.
- Compared outcomes by gender, parental education and test-preparation status using Excel pivot tables, and validated each comparison with SQL queries.

## EDUCATION

**Sabaragamuwa University of Sri Lanka** *2024 – Expected 2028*
BSc (Hons) in Information Systems | Coursework: Databases, Data Analytics, Software Development, Cloud Computing, Cybersecurity

## CERTIFICATIONS

**IBM Data Analyst Professional Certificate** | *IBM (Coursera)* *Completed May 2026*

- 11 courses in Excel, SQL, relational databases, Python and Cognos; capstone analysed and presented a real-world dataset.

**Google Data Analytics Professional Certificate** | *Google (Coursera)* *Completed April 2026*

- 9 courses across the full analysis lifecycle (prepare, process, analyse, share); case-study capstone in SQL, Tableau and spreadsheets.

**Also completed:** Preparing Data for Analysis with Microsoft Excel; Harnessing the Power of Data with Power BI (Microsoft, Coursera, 2026).
